Sharp Energy

Based in Salisbury, Maryland, Sharp Energy distributes propane to approximately 37,000 residential, commercial and industrial customers in Delaware, Maryland, Virginia and southeastern Pennsylvania. In tandem with acquisitions and building its customer base, Sharp Energy has concentrated on distribution and storage of propane gas to ensure a constant and adequate supply for its customers. Sharp has nearly two million gallons of storage capacity on the Delmarva Peninsula. This benefits customers in that Sharp can buy when the price is right to ensure competitive pricing, as well as adequate supplies when demand is strong during colder weather.

Tri-County Council for Southern Maryland

The Tri-County Council for Southern Maryland serves as a regional cooperative planning and development agency for Calvert, Charles, and St. Mary's counties for the resolution of region-wide issues and for the attainment of regional goals in economic development; environmental protection; and regional resource management, which includes transportation, utilities, urban growth and development, housing, and public facilities and services.

The transportation team is responsible for regional transit service coordination; regional transportation plan development and implementation; promoting carpool, vanpool and commuter express bus service; developing and implementing strategies and tools aimed at encouraging cooperative land use and resource planning between NAX PAX River and its surrounding cities and counties, state and federal agencies, and other affected stakeholders; and providing technical support for programs such as Regional Transportation Coordination Program (RTCP); 5310 grants program; Senior Ride Program (SRP); and other transit related programs.

Tri-County Council for Southern Maryland (Cont.)

- **Program Highlights:**
- The Tri-County Council for Southern Maryland contracted with the Community Transportation Association of America (CTAA) to explore Innovative Solutions to increase healthcare related transportation. The project created a regional workgroup using design thinking to lead community stakeholders through creatively thinking "outside the box" to meet the needs of users, use existing resources and can be financially sustained. TCCSMD is partnering with the Rural Maryland Council, ARC of Southern Maryland, Center for Life Enrichment, and Center for Mobility Equity, to fund a pilot program initiative based on the selected solution concept.
- TCCSMD's TDM specialist George Clark received a plaque of appreciation from the Metropolitan Washington Council of Governments/ Commuter Connections for his outstanding qualities of leadership and commitment to the Council of Governments and the people of the metro region during his time as Chair of the Employer Outreach Committee October 2016-2017

Zonar

- Founded in 2001, Zonar had one simple idea: That electronically verified inspections could revolutionize the way pre- and post-trip inspections are conducted. By doing so, Zonar could increase safety for everyone on the road and minimize the risk of on-the-road breakdowns.
-
- Since its inception, Zonar has grown in size and scope to become a leading provider of complete technology solutions for smart fleet management. They have achieved that status by consistently innovating on technology that helps their customers and partners operate more efficiently across industries and verticals.
